

This comment is in regard to the weakening of the Do Not Call regulation, 02-278. I am very satisfied with the law as it now stands. Prior to the do not call law I was constantly answering the phone only to find someone trying to sell me something I did not want. These calls were as many as 5-8 times in an hour. I do not want these calls. If I want something, I will seek out those who can supply what I want. **I do not want to be bothered by these people. I also want to see calls made to cell phones stopped. I do not want to have to pay to have these people invade my privacy.**
